Reading

To complete your reading activities log on to your Bug Club. Read the books in your level and complete the activities. Remember it's not a race. You should not read all the books in one day. It is important that you understand the book and the vocabulary in each book. If you don't understand a word you should ask an adult. If you find any good WOW words, for example, an excellent adjective; write it down and you can share it with your friends when we come back.

English

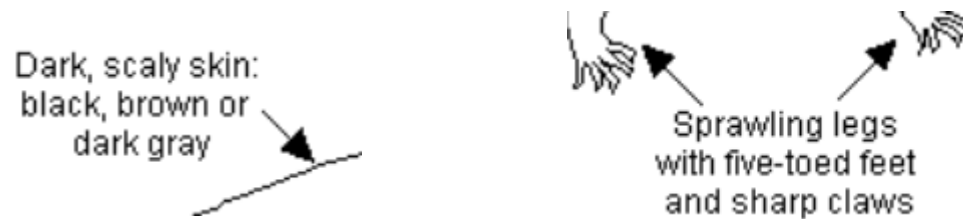

Design your own dragon and give it a name. You can draw a picture or use a 3D model to show your ideas. Think carefully about what its skin, head, wings, claws, eyes and tail look like. What colour is your dragon? Is there a special reason it is coloured in that way? Consider where your dragon lives. What does it eat and why? What can your dragon do. Is it dangerous or friendly?

English

Describe your dragon. You can choose to use labels

or write in sentences:

Fire-wings are easy to identify as they are the only dragon to have a unicorn's horn. They have bright yellow eyes which enables them to see in the black skies. The adult fire-wing has a furry, scarlet body which keeps them warm in the cold mountains. However, babies are born with white fur which provides good camouflage on snowy mountains.

Remember to use the best adjective you can. You are not allowed to use 'nice', 'big' or 'good'.

Challenge

How to catch a dragon

When a dragon is on the loose in your kingdom, you can be left in a bit of a sticky wicket. Follow these set of instructions and you will never have to fear a dragon again!

You will need

- Fire-proof armour, sword and shield
- 100 kg sack of pepper
- A rope
- Bottle of dreamy, sleepy, nighty snooze
- iPod with speakers and remote
- 'Puff the Magic Dragon' song installed

Instructions

1. First, put on your fire-proof armour. This will be rather heavy and arm yourself with a sword and shield.
2. Next, approach the dragon's lair cautiously, armed with your sword and shield and place the iPod and speakers at the entrance.
3. Tip-toe to a position above the entrance of the cave.
4. Now, build up your courage, and press play on your iPod remote to play 'Puff the Magic Dragon'. (Dragons hate this tune!!!)
5. The dragon should run out roaring! As soon as it reaches the entrance, throw the sack of pepper onto the ground in front of it. This will cause the dragon to sneeze uncontrollably.
6. Now, jump on its back and pour the entire contents of dreamy, sleepy, nighty snooze down its throat, just as the dragon is about to sneeze. AHHHHHHH C.....
7. In 5 seconds, the dragon will be fast asleep...snoring. Tie the dragon up. (Use a double knot because dragons are escape masters!)
8. Finally, pack up your iPod and speaker. Sit back and relax. You've caught your first dragon.

| Are you kept awake at night by the sound of dragons crunching bones? | You will need: a magical spade, a brown sheet, some leaves and sticks, plus a large lump of tasty meat. | First, dig a deep pit. | Next cover the pit with a brown sheet. |
|  |  |  |  |
| After that, scatter on the leaves and sticks. | Finally place the large lump of meat on top. | Now tiptoe behind a tree and wait. | In the end, the dragon will not be able to resist the temptation and will therefore fall into the pit. |
